Job Posting Distribution

Jobs are submitted to hundreds of job boards and websites, including those based on location, industry and career type.

Modern recruiting has moved past the individual job board and onto networked recruitment strategies that permeate the internet through social media, search engines and hundreds of job boards.

NetHire leads the industry in networked recruiting.

All job postings are added into the social media mix, optimized for search engines and written into blogs and press releases.

The Result - Sourcing the right, highly skilled candidate for your open position.

Receive and Manage your Applicants and Responses the way YOU want!

1. Receive your responses by email

You will always know where your response is coming from as all emails are identified as “NetHire”. They're sortable by job title along with applicant's name for easy management.

2. Applicant Management System

The NetHire AMS is included FREE with all packages and postings.

3. Our system works with 3rd Party ATS providers:

NetHire’s Control Panel and Applicant Management System (AMS)

1. Post and Manage your Jobs

The Control Panel and AMS can be used by one person, or shared across many recruiters with different levels of access, in any number of locations.

2. View, Rate and Sort Resumes

Rate resumes and arrange them for better control.

3. Keep Track of Applicants in your “File Cabinet”

Sort and track candidates through the entire hiring process using the NetHire filing cabinet.

Our system is easy to use and full training takes less than 10 minutes!

NetHire is NOT a job board,

but a service catering to companies, recruiters and employment agencies, to effectively promote their job postings to the largest targeted audience of qualified candidates possible.

NetHire has built the largest network and the best system in North America - able to reach out to both active job seekers as well as the passive, qualified people who are excellent potential candidates.

- In 2011, 8 out of every 10 clients that tried NetHire for the first time went on to post additional jobs with NetHire.
- Additionally, 97% of clients who held annual contracts renewed at the same or higher levels of service.

There are 5 components to a NetHire Job Posting

- 1. Review, Edit and Write a proper Job Posting**
Attract the right candidates with the right message
- 2. Optimize and Target**
Target, geo-target and add keywords and tags
- 3. Optimize for Search Engines**
Posting optimized to show top of search results
- 4. Distribute to Job Boards**
Each job posting is submitted to hundreds of targeted job boards
- 5. Infiltrate Social Media sites**
Targeting the passive candidate through social media

Whether you have 1 or 10,000 job postings per year, we have a posting/package for you.

Our Programs

- **Posting Packs** - Buy a block of job postings, usually the amount you will use in the next 12 months, and save big! The more you buy at one time the more you save!
- **Job Slots** - A job slot is a single active posting you control. Put a job up and take it down when filled and put another in its place. Buy 1-1,000 slots.
- **Flexible Poster** - Post jobs as you need them and only pay for the ones you post. The more you post in any calendar month the more you save.
- **Retainer** - You pay a small monthly retainer for premium service plus all your job posting costs are reduced. The more you post in a year the more you save on each posting.

All packages can have jobs posted manually, scraped from your website or uploaded via a feed (xml).

Let's get started!

Choose how you'd like to start with NetHire.

- A single job posting?
- A job posting with a guarantee?
- A tester pack of 5-25 jobs posted at one time?

**Decide what fits your needs and budget
and call us today to get started.**
